

شركة عثمان عبدالرحمن العصيمي وشركاه التجارية

OTHMAN A. AL-USAIMI & PARTNERS TRADING COMPANY

Company Profile

Since its inception 40 years ago, Othman Abdul Rahman Usaimi & Co. pledged to provide to its customers with all their steel product needs in Saudi Arabia and neighboring Gulf countries.

Pursuing this vision, the company has created more than 42 branches to cover the needs and requirements of its customers in the northern, western, southern, eastern and central regions in the Kingdom. The company has also, in recent years, developed and expanded its presence in the Arabian Gulf by establishing commercial branches in Bahrain, Qatar and Kuwait. These expansions were followed by the launching of Usaimi Transport Co. to manage the internal and external fleet serving all regional Branches and customer request in a timely manner.

Following the rapid expansion of the construction sector and the increased demand for high quality steel products in the Kingdom and broader region,

the company decided to establish “Al-Usaimi Industrial Steel Factory”. The factory works to supply all branches with both standard and customized steel products. To do so, the company adopted the latest technologies and acquired internationally-accredited certificates to distinguish its high quality products. These measures have allowed it to compete locally and regionally.

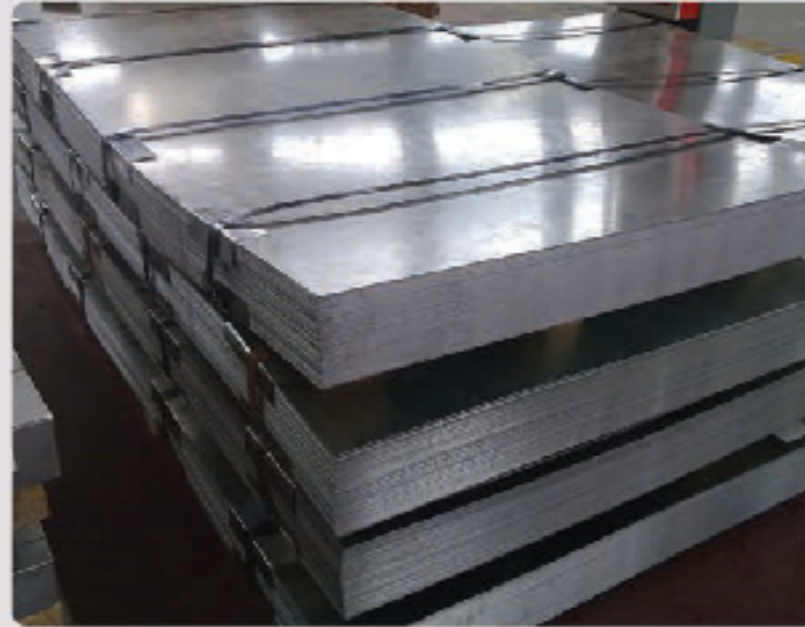

Nowadays, the company is considered to be one of the leading companies in the steel business in Saudi Arabia and the Arabian Gulf. It ensures that all obligations and social responsibilities are being fulfilled by providing employment and necessary professional training, including occupational safety and health principles.

Providing all standard steel products to its customers,
with the ability to meet all client needs for any custom size

Company's Products

Steel sheets

Al-Usaimi Steel Factory produces all types of steel sheets as follow:

- Black Sheet / Hot Roll
- Cold Roll
- Galvanization Sheet
- Expanded Sheet 0.5" x 1" & 1" x 2" and length of 1 mm or 5 mm
- Chequered Sheet
- Aluminum Sheet
- Zincor Sheet
- Default Sizes: 1 m x 2 m / 1.22 m x 2.44 m / 1.5 m x 3 m / 2 m x 6 m

With the ability to custom produce all lengths and special sizes, in accordance with customer needs

Prepainted and Galvanized Corrugated Steel Sheets

Al Usaimi steel factory produces corrugated steel sheets in several formations, depending on customer specifications, and can deliver the following items

- Plain
- White Corrugated Sheets
- Color Corrugated Sheets
- Aluminum Corrugated Sheet
- Galvanized Corrugated Sheet
- Corrugated Sheets With Insulation
- Ridge Cap

We produce corrugated sheets in several formations and in seven different varieties of materials, in standard or customer specified sizes upon request.

Rolling Mill Factory

Al-Usaimi Factory produces a wide variety of hot rolled products. These include the following products:

Hot Rolled Products:

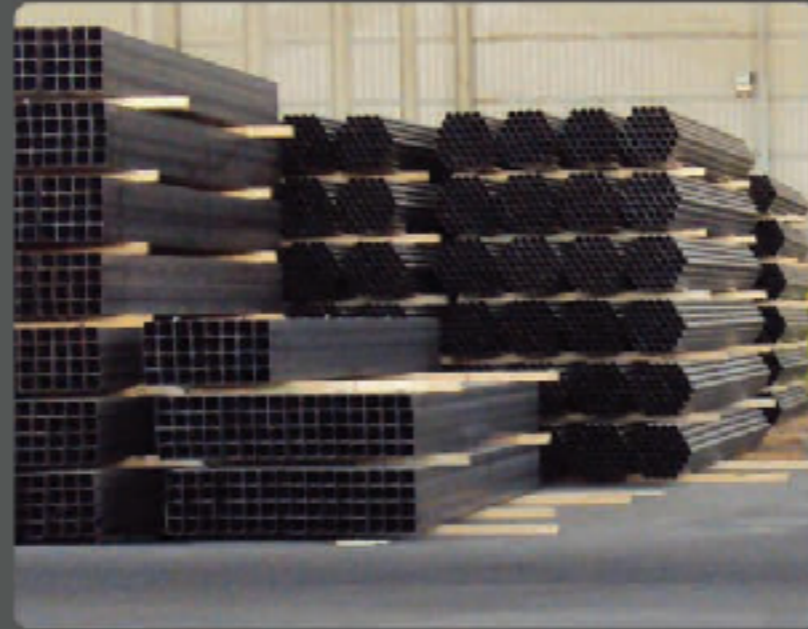

- Round bars: ● Size from 8 mm to 67 mm
- Square Bars: ■ Size from 10 mm to 50 mm
- Flat Bars: — Size from 12 x 3 to 120 x 20
- Rebar: ☒ Size from 12 mm to 32 mm

Cold Rolled Products:

- Rebar: Size from 4 mm to 10 mm

The company offers all types of bars from 6 to 12 meters long, with the ability to custom produce and cut all lengths as requested by customers

Tube & Pipe

Al-Usaimi Steel Factory produces rectangle tubes, square tubes and pipes, available as follow:

- Square Tube:-
Start from 12 mm x 12 mm to 120 mm x 120 mm
- Rectangular Tube:-
Start from 10 mm x 25 mm to 100 mm x 150 mm
- All tubes and pipe sizes are available from 1 mm to 6 mm
- Black Pipes:-
Starting from 0.5" to 6"
- Cobesta:-
Available at 1.2 mm and 1.5 mm

With the ability to produce all lengths and custom sizes in accordance to the customer needs

Base Plate

Steel base plates (or columns base plates) are used in the construction of steel frames, such as hangars. These can be produced and delivered with standard holes or plain, depending on customer needs

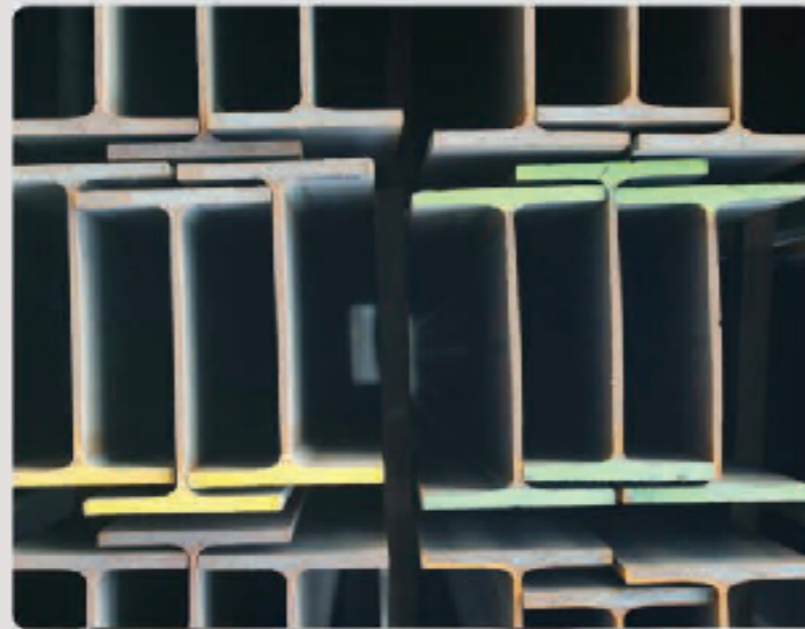

- Sizes from 10 x 10 cm / to 75 x 75 cm
- Thickness from 3 mm to 100 mm

Steel anchor bolts

Anchor bolts used with the base plates. These are 30mm in diameter and between 30 cm to 90 cm in length, as specified by individual customers.

We offer all sizes, and can deliver galvanized base plates and bolts.

Sections I-BEAM / H-BEAM

■ C-Channel :-

Available Hot rolled and cold rolled and galvanized steel:

Thickness 1.5 mm to 3 mm

Standard length from 6 m with ability to produce any special size

■ ANGLE BAR :-

Equal Angle starting from 20 x 20 to 200 x 200

Unequal Angle starting from 40 x 20 to 200 x 100

■ Angle T-Steel Bar:-

Starting from 30 x 30 to 80 x 80

■ I-BEAM :-

IPE starting from 46 x 80 to 210 x 500

JIS starting from 55 x 100 to 600 x 200

IPEAA starting from 46 x 80 to 135 x 270

■ W-BEAM / UB-BEAM / UC-BEAM :-

WB starting from 6 x 12 m to 14 x 12 m

UB starting from 203 x 133 to 533 x 210

UC starting from 152 x 152 to 305 x 305

■ H-BEAM :-

JIS starting from 100 x 100 to 400 x 400

HEA starting from 96 x 110 to 590 x 300

HEB starting from 100 x 100 to 1100 x 300

■ U-CHANNEL :-

UPN starting from 20 x 40 to 300 x 100

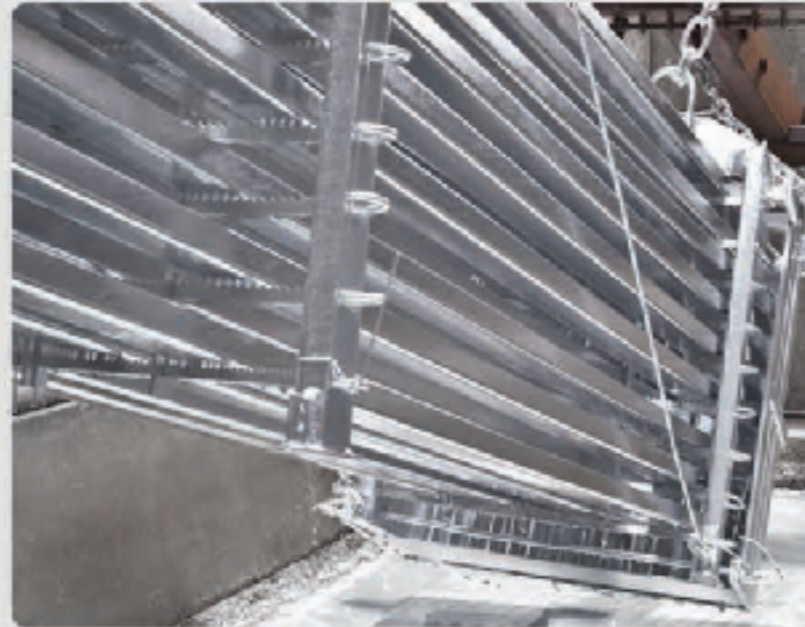

UPE starting from 50 x 32 to 300 x 100

JIS starting from 75 x 40 to 300 x 90

These are available in lengths between 6 and 12 meters, with the possibility of custom cutting and delivery of all special lengths in accordance with customer needs

Galvanization

Al Usaimi Co. are committed to provide our customers ideal solutions to tackle the corrosion and rusting problems inherent in all steel products. Galvanizing is a process in which the metal is immersed into molten zinc to form a protective layer which covers steel surface completely, metallurgically sealing it to protect it from corrosive actions of its environment.

- Galvanized metals are used to protect steel surfaces that are exposed to corrosive forces and cracks. Examples include: all steel structures and metal frames, walkways and stairs, ladders, chains, pedestrian hand rails, metal pipes, steel towers and electrical poles.
- The size of the zinc kettle allows the user to apply this process on large steel items in one dip.

The company is able to apply the galvanizing process for large steel items in one dip.

Wire Mesh

Steel wire mesh can be produced in all standard sizes, with the ability to produce special sizes as follow:

- Thickness from 4 mm to 10 mm
- Inside holes from 10 x 10 cm up to 30 x 30 cm
- Width from 1 up to 2.7 meters with length to 6 meters
- with the option to deliver the wire mesh galvanized.

The ability to produce all lengths and sizes, and deliver galvanized steel wire mesh as per customer needs.
